I am an enthusiastic and cheerful person who loves to learn new skills and meet new people. I enjoy the satisfaction of working hard and my eye for detail helps me to see how to get the best results. I learn quickly, I adjust well to new tasks and I am well practised at working to tight deadlines. I'm a sensible, responsible worker and I use my initiative, although I'm not afraid to ask questions if I don't understand. I work well in a team but perform equally well independently. I'm open to criticism to improve my work if necessary and I look forward to every new opportunity.
